Listed here are the articles appearing in the May 2011 issue of the Journal. For ordering information, go to www.awma.org/journal or call 1-412-232-3444.

In This Issue...

Greenhouse Gas Emissions from Waste Management—Assessment of Quantification Methods

Measuring In-Cabin School Bus Tailpipe and Crankcase PM$_{2.5}$: A New Dual Tracer Method

In-Use Fuel Economy of Hybrid-Electric School Buses in Iowa

The Reduction of Dioxin Emissions from the Processes of Heat and Power Generation

Removal of Propylene and Butylene as Individual Compounds with Compost and Wood Chip Biofilters

Study of the Transference Rules for Bromine in Waste Printed Circuit Boards during Microwave-Induced Pyrolysis

Preparation of Activated Carbons from Raw and Biotreated Agricultural Residues for Removal of Volatile Organic Compounds

A Study on the Reaction Characteristics of Vanadium-Impregnated Natural Manganese Oxide in Ammonia Selective Catalytic Reduction

Photochemical Modeling in California with Two Chemical Mechanisms: Model Intercomparison and Response to Emission Reductions

Temporal Analysis of PM$_{10}$ in Metropolitan Monterrey, México
